BARREL GUNS

Svenic is Australasia's leading supplier of quality Sealant and Adhesive Application Equipment. All our applicators are manufactured, to stringiest levels of quality control. The many features of our Hand Operated Barrel Applicator, make it a must for the professional. This top of the range, professional quality applicator, is the state of the art in sealant application equipment.

The applicator can be adapted for use with Cartridges, Sachets, Bulk and Pouring Grade, Sealants and Adhesives. A follower plate and/or Bulk Gun Filler is recommended when using bulk material from a pail. Svenic has continually improved and introduced new features to its Hand Operated Barrel Applicator.

No other company can offer the range of products, the knowledge and expertise, together with the commitment to continue to expand, within our field.

Specifications:

- 30cm, 37cm, and 45cm standard barrel lengths
- 50mm diameter barrel
- Easily dispenses any hard or difficult sealants, caulks and adhesives, due to its high mechanical advantage. Operator efficiency is enhanced by the effortless trigger action which allows for smooth, full strokes.
- Balanced design and profiled hand grip provide for comfortable use by all hand sizes.
- Quick release end cap reduces refilling time thus increasing user efficiency.
- Wearing parts are replaceable
- Swivel frame allows for continuous beading without changing the angle of the trigger.

- Optional spanner accessory allows the springs, catch plate and thumb release plate to be quickly replaced.
- Optional hanging hook accessory enhances safety and user convenience by allowing the applicator to be hung from the ladder, gutter, belt etc.
- Nozzle holder accepts standard nozzles or nozzles made from 3/4 inch gas pipe

Manually dispenses:

- Cartridges
- Sachets
- Collapsible Cartridges
- Bulk Material
- Pouring Grade Materials
- Resins and epoxies

- Plastic plunger gives a clean sweep within the drawn barrel thus preventing the sachet gathering behind the plunger during operation.
- Thick patented catch plate, hardened push rod, and robust construction, ensure reliability and increased working life.

Item No.	Description
656SAE	15 cm barrel sealant applicator without nozzle holder
660SAE	30 cm barrel sealant applicator with nozzle holder
665SAE	30 cm barrel sealant applicator without nozzle holder
670SAE	37 cm barrel sealant applicator with nozzle holder
670SAENoz	37 cm barrel sealant applicator with nozzle holder and mixed nozzle set
675SAE	37 cm barrel sealant applicator without nozzle holder
678SAE	37 cm barrel sealant applicator with nozzle holder and with 26:1 gearing
671SAE	37 cm barrel sealant applicator with nozzle holder
672NOZ	37 cm barrel sealant applicator with nozzle holder and mixed nozzle set
681SAE	45 cm barrel sealant applicator with nozzle holder
662SAE	30 cm barrel sealant applicator with zero displacement nozzle holder assembly
