TRADE AND PROFESSIONAL QUALITY

- Strong, lightweight, quality construction, ensures reliability.
- Thick, smooth catchplate results in minimal wasted trigger action and increased worklife.
- Comfortable operation due to smooth, effortless action, contoured trigger and balanced design.
- Made from impact and fracture resistant glass reinforced nylon.
- Cartridge support ring adds strength, and holds cartridge in place during operation and when changing cartridges.
- Optional clip on nozzle spike allows for quick piercing of cartridge membrane.
- Cheap and inferior copies can result in operator injury and dissatisfaction.
- Hanging hook enhances safety and user convenience by allowing the applicator to be hung from the ladder, gutter, belt, etc.
- Pressure release (patent applied for) automatically prevents applicator from contributing to material "flow on".

PRO GUN 2

Item No.	Description
614SAE	215 mm "Pro Gun 2" cartridge sealant applicator Features: orange colour, glass reinforced nylon construction for 300ml cartridges

- Top of the range, professional quality applicator.
- Easily dispense any hard or difficult sealants, caulks and adhesives, due to their high mechanical advantage.
- Operator efficiency is enhanced by the effortless trigger action that allows for smooth, full strokes.
- Balanced design and profiled hand grip, provide for comfortable use by all hand

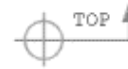

HV FRAME GUN FOR SMALL CARTRIDGES

sizes.

- The frame has a premium epoxy powder coating, which resists corrosion.
- Optional hanging hook accessory, enhance safety and user convenience, by allowing the applicator to be hung from the ladder, gutter, belt etc.
- Superior projection spot welds prevent the end ring "popping off" under high pressure.
- Swivel frame allows for continuous beading without changing the angle of the trigger.

- Thick, patented catchplate, hardened push rod, and robust construction, ensure reliability and increased working life.

Item No.	Description
